What is this product?

Type

This is an investment fund established as a company with variable capital and segregated liability between Funds, under the laws of Ireland.

Objectives

Investment objective The investment objective of the Fund is to seek capital appreciation through investment in small and mid-capitalisation, dynamic and emerging growth companies that are making a difference externally by aiding individuals, companies and governments meet their sustainability goals.

Investment policies The Fund invests primarily in equity securities of small and mid-capitalisation ("SMID Cap") companies located in or whose businesses are closely associated with the United States. All securities issued by SMID Cap companies in which the Fund will invest will be listed or traded on a Regulated Market and meet the conditions of a transferable security as defined in the UCITS Regulations.

The Fund's investments will be selected with a view to promoting certain environmental and social characteristics, as described under ESG Promotion and Integration Risks below by investing directly or through the use of FDIs.

Because the Investment Manager's stock selections are determined by an analysis of each individual stock, the characteristics of the Fund may differ from the overall SMID Cap Range. The Fund will typically comprise a portfolio of 40-60 stocks. The fundamental analysis focuses on determining each investment's potential for appreciation or depreciation, typically including evaluation of the financial strengths and weaknesses, earnings outlook, corporate strategy, management ability and quality, the company's overall position relative to its peer group and ESG factors.

The Investment Manager seeks to diversify the Fund's investment holdings to minimise risk and manage position size. The maximum investment in any one company will be 8% of the Fund's net assets at the time of purchase and may, in accordance with the UCITS Rules, be up to 10% thereafter.

The equity securities in which the Fund will invest may include ADRs and GDRs, further details of which are set out in the Prospectus. The Fund will not invest in Underlying Collective Investment Schemes.

Benchmark The Fund uses the Comparator Benchmark, Russell 2500 Growth Index, for performance comparison purposes only. The Fund is actively managed and is not constrained by any benchmark. In its construction and method of calculation, the Comparator Benchmark does not take into account the sustainability characteristics described under ESG Promotion and Integration of Sustainability Risks in a manner that is consistent with the Fund's approach towards the sustainability characteristics.

Redemption and Dealing Investors can redeem shares each day (except Saturdays and Sundays and normal bank holidays) on which banks in Dublin and New York are open for regular business.

Distribution Policy Any income less expenses will be accumulated and reinvested into the Fund.

Launch date The Fund was launched on 27/03/2023.

Fund Currency The base currency of the Fund is USD. This share class currency is USD.

Switching Shares in the Fund may be switched for the shares of another share class of the Fund or another sub-fund of the Company, subject to certain conditions and meeting the requirements for investment in such other share classes or sub-funds. See the section entitled "Conversion of Shares" of the Company's prospectus for more information.

Asset Segregation The Fund is a sub-fund of the Company, an umbrella fund with segregated liability between sub-funds, established under the laws of Ireland. This means, if the Company establishes other sub-funds, the assets and liabilities of each sub-fund are segregated by law and cannot be used to pay the liabilities of another sub-fund of the Company.

What happens if Management Company is Waystone Management Company (IE) Limited is unable to pay out?

The Management Company has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should the Fund default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

■ 10,000 USD is invested.

Example Investment 10,000 USD	if you exit after 1 year	if you exit after 5 years (recommended holding period)
