

Granahan Future Pathways UCITS

30 June 2024

Investment Summary

Granahan's Future Pathways Fund invests in 40-50 equities of small and mid cap ("SMID Cap") companies, focusing on traditional fundamentals while also uncovering the intrinsic value of societal impact. The goal of the strategy is intended to be flexible and adaptable to environmental and social issues as they arise, and able to rotate where the best opportunities exist for stock appreciation in this universe. The fund looks beyond ESG ratings data, instead focusing on the external benefit of the products and services provided by the holdings. Our most recent Annual Report for Future Pathways can be found [here](#).

Fund Highlights

- As a firm focused on small- and midcap companies, we believe that smaller companies — through their products and services — have an advantage in helping larger businesses meet their sustainability objectives.
- Future Pathways'** diversified portfolio is mapped to the UN SDG's and six specific objectives: Clean Energy, Energy Efficiency, Health Care Outcome & Cost, Pollution Reduction, Social Justice & Opportunity and Water & Food.
- Future Pathways** is a collection of smaller companies helping larger institutions meet their tech, environmental, medical, and societal needs in a direct and impactful manner.

Monthly Commentary

Bets on how many rate reductions, if any, have been whittled down since January, owing to a string of outsized data and warnings from the Federal Reserve. The U.S. presidential debate at the end of June showed weakness on the Democratic side and has set the stage for possible upward pressure on inflation with a Republican win. The Russell 2500 Growth Index was down -0.5% (USD) for the month and the Granahan US Future Pathways Fund UCITS was down -9.1% (USD). Performance lagged largely from stock selection in Information Technology, Health Care, Industrials and Consumer Staples. We are overweight Technology, Health Care, Industrials and Consumer Staples and underweight all other sectors. We do not own Utilities, Materials, Real Estate, Energy, Communication Services, or Financials. The market has become extremely narrow with a short list of stocks that are "Haves" and a much longer list of "Have Nots". Meanwhile, the "Have Not" bucket is spilling over with a wide range of companies whose valuations are meaningfully disconnected with their earnings power leading to some particularly attractive investment opportunities.

The Russell 2500™ Growth Index measures the performance of the small to mid-cap growth segment of the US equity universe. It includes those Russell 2500 companies with relatively higher price-to-book ratios, higher I/B/E/S forecast medium term (2 year) growth and higher sales per share historical growth (5 years). The Russell 2500 Growth Index is constructed to provide a comprehensive and unbiased barometer of the small to midcap growth market. The index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small to mid-cap opportunity set and that the represented companies continue to reflect growth characteristics.

Composite Footnotes

Granahan Investment Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Granahan Investment Management has been independently verified for the periods January 1, 1993 through December 31, 2021. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. The verification report(s) is/are available upon request. GIM is an independent, SEC-registered investment firm that oversees small and mid-cap equity portfolios for large institutions and wealthy individuals. The Future Pathways product utilizes fundamental, bottom-up research and analysis to invest in the stocks of companies in the small/SMID cap sector of the market that offer products or services that promote or enable sustainability in other enterprises; many are market disruptors. Future Pathways is a high conviction portfolio typically containing 40-50 holdings. The benchmark for Future Pathways strategy is the Russell 2500 Growth Index. The composite, created in September 2020, is calculated by asset-weighting the performance of each account on a monthly basis. Accounts are included beginning with the first full month under management and terminated accounts are included in the composite. Performance calculations, expressed in U.S. dollars, produce a total return including cash and the reinvestment of dividends and interest. The dispersion is a standard deviation using equal-weighted total returns for accounts in the composite the entire year. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. Leverage is not utilized. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. Returns are gross of investment management fees, which when included, reduce investment returns. The standard management fee applicable is applied to calculate the net return. The standard fee for accounts managed in the Future Pathways style is payable quarterly in arrears and is calculated by applying the ANNUAL rate of 1.00% times the average value of the assets in the account on the last day of each month in the quarter. Fees are collected quarterly, which produces a compounding effect on the total rate of return net of management fees. Market value is based on trade date and security pricing is supplied by Telemet.
